Waidroka Bay RESORT

Waidroka Surf

Surfing in Fiji is world class and all year around. Utilizing the pacific swells which break on the various reefs right outside the resort presents a variety of un-crowded waves. Waidroka Bay Resort is the ONLY main island resort that runs surf trips to 'World Famous Frigates' and is the only resort that surfs 'Pipe,' 'Resorts Left,' and 'Serua Rights.' With a large selection of rental surf boards, body boards, helmets, rash guards and booties, a Waidroka Surfing Safari is at your finger tips.

The Trip to Frigates Passage takes approx 45 minutes and local spots only 5 – 10 minutes from the resort. Traveling in comfort aboard the 'Fiji Explorer,' a 30 foot catamaran style boat with a full roof, padded seats and toilet, or it might be 'Wave-Rider' or the 'Wave Hunter' that heads out, all twin engine boats with GPS, VHF, boat captain and surf-guide. Which ever the boat, it remains with you while you enjoy the world class waves at some of the best surf breaks in the world. Between sets you can relax in the shaded comfort of the boat and enjoy lunch, snacks, drinks and stories from your Fijian guides.

Frigates

Serua Rights

Pipe

Frigates (left): World Class and one of the best surf breaks in Fiji! Frigates can easily rival some of the best lefts in the world, including Cloudbreak.! Frigate's is a powerful, fast and consistent hollow left. Big barrels, long rides and works at all tides! The most common SE trade winds are offshore for Frigates and it picks up 1-2 feet more swell than any of the other breaks, due to it's deep water position Most surfers that had a few sessions at Frigates will come back to Fiji to surf Frigates again and again. Longest ride 150 m plus with a relatively easy take-off, with various sections, down to the last inside section with a hollow barrel (drop out at low tide since it gets very shallow). An epic and one of the most fun waves in the Pacific! Boat trip to Frigates takes about 45 minutes. If you get hungry order a lunch pack which will give you the energy in-between surf sessions. Soft drinks and beer is served off a cooler on board and there is music on board of the boats for those watching.

Pipe(left): We also call it Teahupoo ! Peaky Lefthander. Pure Barrels. Experienced Surfers. mid- to high- tide break. One of the best surf spots in Fiji for body-boarders. With bigger swells Pipe becomes a challenge and is a late take-off, with a drop straight into a barrel (best to 'rail it'). It can be approximately 50 m of pure fast barrel. Once you have made the barrels at Pipe any other wave becomes 'easy'...

Serua Rights (right): Great long right hander. Mellow take off going into hollow inside section. On medium days this is one of the longest rights surfing in Fiji offers. Works at all tides. Waves begins to break on outer reef and peels into deep water. Keep cutting way back inside and stay in the foam. Stay with it! Your ride has not finished yet. As you head in towards the inside reef (quite shallow) a full reform/peak will start coming straight at you from down the line. Back door it! Where the boat parks is perfect for barrel photo's. Drop out after that since it becomes shallow.

Resorts (left): Fun lefthander. Good surf break for beginners and long boards. Allows surfing at all tides. Resorts can get real big sets with good swell and is a great take-off in deeper water, with a 'pyramid type' section which barrels and is fun to get through, after which you have to cut back immediately to stay on the wave. A fun wave!

420's (left): Fun left which works at times, right opposite Serua. Peaky take-off, fast ride.
